

BRITISHROWING

We want your input in considering how we develop a structure without points

National Competition Review Consultations

Event organisers, aspiring organisers and active club coaches are invited to attend one of the regional sessions being organised to help shape what the future competition structure might look like.

Each session will commence with a presentation followed by group discussions to provide an opportunity to express your ideas. The outcome from all the sessions will inform the way forward.

If you would like to bring two people from your event organising committee then please include one newer member to ensure that we have a broad age range representative of our sport.

We are offering two places per club, however if you have a third member who wishes to attend please add their name and we will include as many as possible.
